## **1. Purpose**

This document presents findings referring to the tests done on the website of the "Dominos Pizza" chain in Israel.

The tests were carried out on the main functions of the site, which refer to operations such as: navigation and displaying the menu, placing an order, registering on the site, using various features, reading information about the restaurant, etc.

## **2. Workspace**

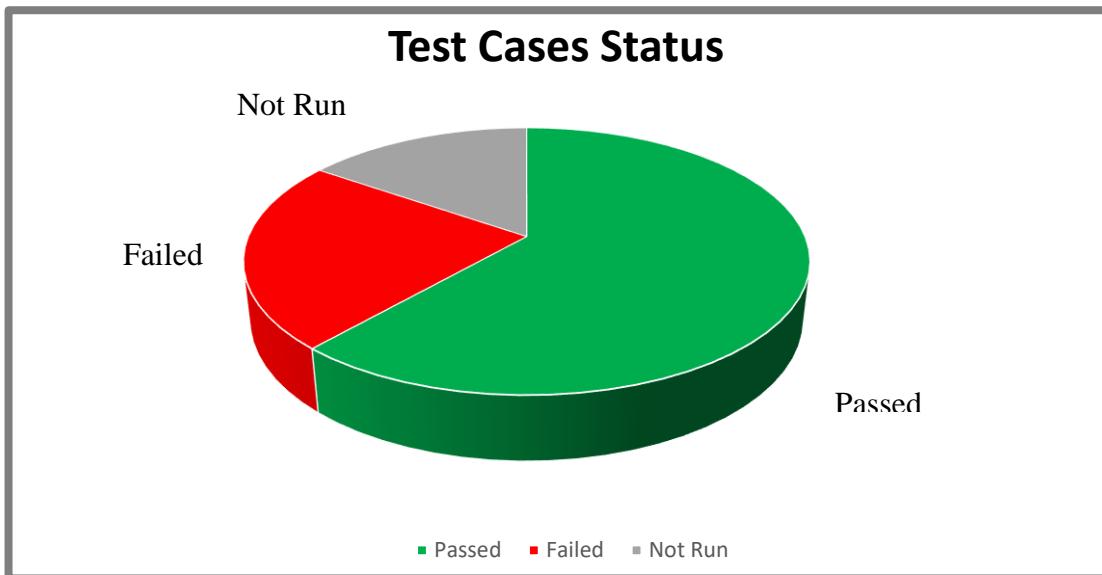

A laptop connected to the internet with a chrome browser.

### **3. Metrics**

#### **Test Cases – Status**

In the following table you can see the number of test cases that after testing were normal, the number of test cases that came out abnormal, the number of test cases that were not tested and the total number of test cases registered.

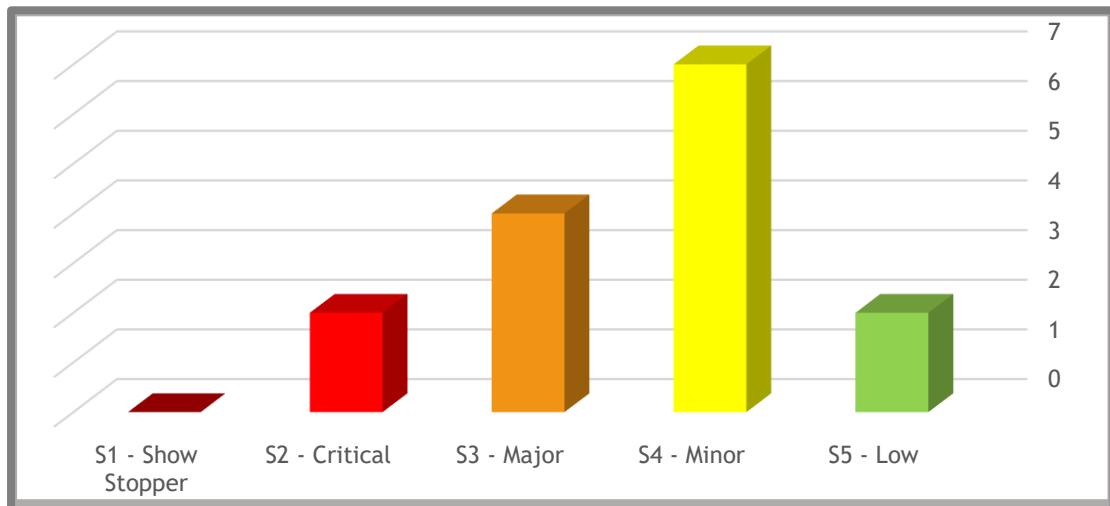

Passed	Failed	Not Run	Total
40	15	10	65

## Severity Bugs – Status

In the following table you can see the number of bugs found divided by severity levels.

S1 – Show Stopper	S2 - Critical	S3 - Major	S4 - Minor	S5 - Low	Total
0	2	4	7	2	15

## **4. Recommendations**

1. To have the option of viewing the menu even for those who are not registered on the website.
2. That the top menus of the website be displayed on all website pages. For example: on the "requested" page the menu is not displayed.
3. Improving the loading time of the home page.
4. One fixed background for the home page and the rotating ads can be smaller in size on the side of the page.
5. A uniform and cleaner design that will be more pleasing to the eye.

## **5. Conclusion**

Following the various tests done on the "Dominos Pizza" website, quite a few bugs were found. Most of them have a degree of severity between low and major.

So, despite the relatively large amount of bugs, the website still functions reasonably well and performs its main functions, which are viewing the restaurant menu and ordering delivery to the customer's home/self-collection.

As a result, I recommended releasing the site.

## **6. Bugs List**

- ❖ [DOM-15] When you go to the "nutritional values" link at the top of the home page and go to the "to order a pizza" link at the bottom of the page, you return to the home page of the site and not to the menu.
- ❖ [DOM-14] On the main page of the site, in the fourth and fifth alternating backgrounds, the "order" link does not work.
- ❖ [DOM-13] When you go to the "Jobs" link at the top of the home page, the site's logo is located too close to the accessibility button, so that when you want to click on the logo, you immediately click on the accessibility button and it opens its window.
- ❖ [DOM-12] When you click on the "Jobs" link at the top of the home page, it is not possible to return to the home page, by clicking on the site's logo you remain on the same job page.
- ❖ [DOM-11] When you go to the "nutritional values" link at the top of the home page and go to the "download the app" link, you will reach the site's home page again.
- ❖ [DOM-10] When you go to the "for all meals" link at the top of the home page and then go to the "pizzas" link and click on the last option in the list to order: "extra pizza" the screen turns black and you cannot order the pizza.
- ❖ [DOM-9] When you enter the "Young Chef Workshop" link at the bottom of the page, there is no link that allows you to return to the home page.
- ❖ [DOM-8] On the home page, the links at the top of the page supersede the caption below.

- ❖ [DOM-7] When you click on the links at the bottom of the main page "menu, branches, jobs and more" when you click on the arrow to go back, a window opens to fill in the customer's address instead of going back to the home page.
- ❖ [DOM-6] On the main page of the site, the four rectangles at the bottom of the page hide the caption of the alternating backgrounds.
- ❖ [DOM-5] On the home page of the site, the design of the rectangles at the bottom of the page is not the same.
- ❖ [DOM-4] You can register on the site with the same phone number as the number of another user registered on the site.
- ❖ [DOM-3] A customer who is not registered on the website cannot place an order.
- ❖ [DOM-2] When registering on the site, if you enter an incorrect phone number, no error message appears.
- ❖ [DOM-1] When entering address information for a delivery order in the rubric of a house number, it is not possible to write letters indicating the number of entrances of the building.

The screenshot shows the homepage of dominoes.co.il. At the top, there are navigation links for Hebrew search, a shopping cart icon, and account information. The main header features the Domino's logo and the text "DOMINO'S PIZZA". Below the header, there are promotional banners for "OH MAMMI" pizzas, including one for "Oh Mammi Oh Mammi + משפחתיyah" starting at 66 shekels. To the right, there's a large image of a pizza topped with red onions, feta cheese, and tomatoes. The bottom of the page displays a menu section with various pizza options.

### Description

1. Log in to the site <https://www.dominos.co.il/>
2. Go to the "Jobs" link at the top of the home page
3. Try clicking on the logo next to the accessibility button to return to the home page
4. It is difficult to click on the logo because it is located too close to the accessibility button and it opens when you try to click on the logo

The screenshot shows the homepage of dominoes.co.il. On the left, there's a large image of a pizza topped with mushrooms, onions, and olives. The Domino's logo is visible on the pizza. The top navigation bar includes a search bar with the placeholder "חיפושים" (Search), a "TRACKER" button, and a "לכל האארות" (For all areas) button. To the right of the search bar are buttons for "ל zamówינה מוקדם" (Order early) and "לזמין מוקדם" (Order early). A yellow arrow points from the text "מאנטזים" (Promotions) in the search bar area towards the "ל zamówינה מוקדם" button. The main banner features the text "משפחתיות + תוספת רק ב- 65 ש"ח מהסיניף" (Family-style + Topping only at the sinnif branch for 65 NIS). Below the banner is a red button with the text "lezmanah <<". At the bottom, there are images of other pizzas and a blue button with the text "התמונה לה פיצה OH MAMMI".

A screenshot of a Domino's Pizza website page. The main content features a large image of shredded cheese. A yellow callout box with black text is positioned over the cheese, stating: "The logo of the page is placed too close to the accessibility symbol". In the top right corner, there is a navigation bar with several blue buttons containing white text. Above the navigation bar, the Domino's logo is displayed next to a wheelchair accessibility icon. A yellow arrow points from the text in the callout box towards the logo and accessibility icon.
